DETAILED ACTION

Response to Arguments

1. The office issued a election/restriction on 9-1-2005. The applicant filed a response on 11-1-2005, but it is non-responsive. The applicant argued that since the original claims that were restricted were all cancelled, the restriction requirement was moot. This is erroneous. The restriction requirement stated that "Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143)." Therefore, the restriction requirement is neither withdrawn nor held in abeyance. The applicant must make an election in compliance with the office action dated 9-1-2005. **For Example:** Invention I, species B, with claims 35-37 reading on the elected embodiment.
